PRO-10 STRAP™ is an excellent product with which to secure unstable loads during transit. It's exceptional tensile strength, tenacity and high elasticity ensures that the load remains tightly bound even if the package shrinks after being strapped.

## STABLE AND SECURE LOADS = LESS DAMAGES AND IMPROVED SAFETY!

PRO-10 STRAP™ is manufactured in South Africa at a state-of-the-art facility using a SIMA production line made in Italy and used globally by the world's leading strap manufacturers. Ensuring high quality product is what we excel in. As such PRO-10 STRAP™ is manufactured from exceptionally high-quality PET raw materials. In addition, the manufacturing facility complies with ISO: 9001-2015 Quality Management Systems. This, combined with world-class European technology ensures that PRO-10 STRAP™ delivers both consistent and exceptional physical and mechanical properties to ensure your load's stability from dispatch to delivery giving you complete peace of mind. **Our in-house laboratory uses world-class testing equipment to ensure consistent high-quality products. PRO-10 STRAP™ is now also fully Section 28 compliant.**

Because PRO-10 STRAP™ is locally manufactured there are additional commercial benefits such as cost benefits, reduced lead-times, reduced minimum order quantities and reduced risk in terms of exposure to port and shipping delays. All of this whilst you are supporting a proudly South African company.

Available in sizes ranging from 9.5mm to 25mm wide and 0.4mm to 1.27mm thick, PRO-10 STRAP™ is versatile and can be used in a variety of applications. From securing light loads such as empty tin cans through to heavy industrial loads such as piping and steel. In some applications PRO-10 STRAP™ can even be used to replace steel strapping making it safer to use and more cost-effective to apply.

Technical support is available to all our customers as and when required.

As we are continually looking for ways to reduce the environmental impact of our products and work towards a sustainable Circular Economy model, PRO-10 STRAP™ is fully recyclable. Contact us to discuss the collection and recycling of your post-consumer PRO-10 STRAP™.

#### WHAT TO DO NEXT

- **STEP 1 - call us!**
- **STEP 2 - let us assess your requirements and suggest a strap size best suited to your needs**
- **STEP 3 - Put our products to the test, you won't be disappointed!**
